Subject: MPCA Memorandum & Update on Petition for Program Withdrawal

Hi Krista, Barbara,

Attached with this email, please find a recent Memorandum made part of the PolyMet Permit to Mine Application assuring MDNR that, if the PolyMet project does not proceed, the MPCA will not require treatment at the LTVSMC tailing waste facility in order to comply with Minnesota water quality standards.

I would appreciate an update on the progress that has been made to date in investigation of WaterLegacy's Petition for NPDES Program Withdrawal and the anticipated date of draft findings of fact.

If you have not already done so, please include the Administrative Law Judge report on the wild rice sulfate standard, which I sent to you last month, as well as the "Attachment O" Memo, in the record pertaining to WaterLegacy's Petition for NPDES Program Withdrawal.

Thank you,
Paula
